## About us

Tritón Pardubice, spol. s r. o. with almost 30 years of tradition is one of the world's leading manufacturers of 19" data, telecommunication and power cabinets including accessories.

The production and development centre is located in Stary Mateřov, 5 km from city Pardubice. Here is step by step built a modern production plant with a total production area of 17,000 m<sup>2</sup> and more than 190 employees and specialists.

In January 2022, the fifth production hall including a new logistics facility was finished.

Last but not least, the company develops and manufactures products used to equip changing rooms, workshops and offices. For example, cabinets, boxes, benches and hanging walls, hockey boxes, workshop furniture, special cabinets for firefighters or for sports equipment (balls, skis, snowboards, bridles, golf equipment etc.). Currently, the Anti-Covid program has been developed and put into production, which includes disinfectant and hygiene stands.

7. 12. In 2021, a new hall with a usable area of almost 3,000 m<sup>2</sup> was approved.

# Modular

Triton Modular clothes lockers introduce a brand new and variable concept. The body is made of steel and can be adjusted to the customers' needs; whether they need a 2-door locker, 4-box, 6-box, 8-box, or other combinations.

Doors can be made of steel or laminated chipboard and can be oriented as left, right, or left/right. Quality Hettich hinges are used to attach them to the frame.

Doors are ready for cylindrical locks or turning locks BURG as standard. Shelves have integrated holders for clothes rods.

Sizes are 1970 x 600 x 500 mm, or 1970 x 800 x 500 mm (h x w x d).

All lockers are made of high quality steel and are delivered assembled.

Furniture hinges Hettich

Shelves with chromed clothes rod detail

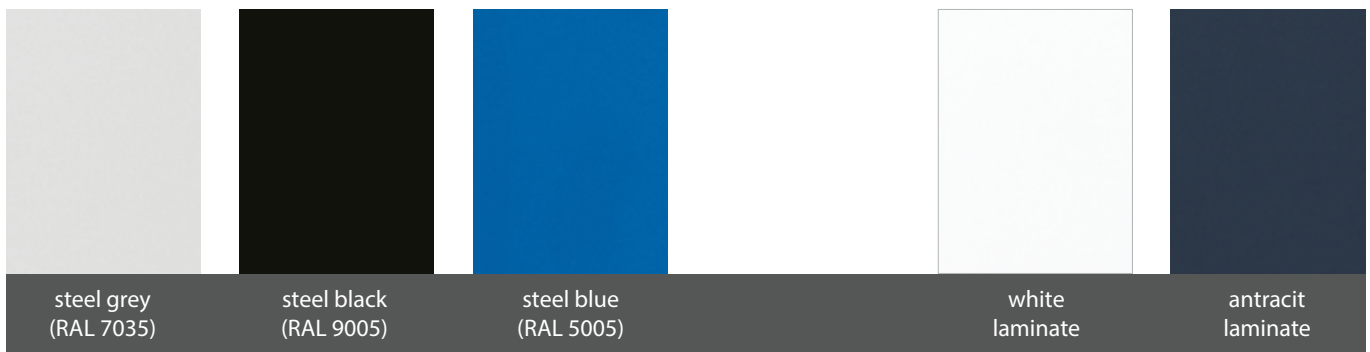

Levelling feet

Modular lockers Triton can be customized to the most demanded options - all this with the use of just one frame. The body and dividing wall are perforated for different door, shelf and lock positions.

This versatility not only makes the delivery faster but also gives the customers the possibility to change the locker later, e.g. in case the customer needs to expand the locker room.

Steel parts are powder coated. Laminated chipboard doors are protected by 2 mm ABS edging.

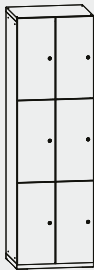

an extended range of decors can be found on page 90.

# Combined clothes lockers

Steel and laminated chipboard combination

Combined clothes lockers have bodies made of quality steel with powder coated finish and laminate chipboard with various decors. Lockers have pre-made holes if any shelves should be added.

Perforation in the steel frame ensures effective ventilation. Lockers can be screwed together to create one compact unit.

Lockers made of steel and laminated chipboard offer reliable and high quality equipment for locker rooms in companies, schools, sport facilities, hospitals, etc.

The basic color of steel corpus consists of a shade RAL 7035 and RAL 9005.

# Laminated clothes lockers

Laminate clothes lockers are made from laminated chipboard with a thickness of 18mm in timeless decors. Simple and elegant design is complemented by cylindrical lock with two keys or any other locking solution. All edges are finished with 2mm ABS.

Stainless steel perforated grille allows circulation of the air together with offset doors.

Unique hinges Hettich Intermat ensure quite closing of the doors.

This locker will become an elegant part of your interior.

## Steel clothes lockers

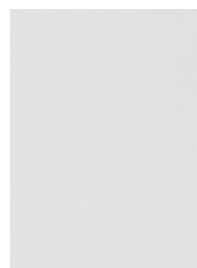

Steel clothes lockers are made of quality steel with powder-coated finish. Powder-coating technology fully meets our customers' requirements. The paint is very resistant against chemical or mechanical damage. A rigid frame ensures stability of every locker. Reinforced doors can be opened almost up to 180° due to our unique hinges. Perforations in doors and frame ensure effective air-ventilation. Levelling feet are always included.

Lockers can be screwed together to create one compact unit.

Timeless design and high quality are the main features of Tritón lockers. They can be used in locker rooms of schools, sport facilities, hospitals, etc.

Standard colour range is RAL 7035 (light grey), RAL 5005 (blue), and RAL 9005 (black).

Other colours from RAL sampler are available upon request.

## Golf lockers

Golf lockers are designed for safe storage of golf bags, carts, and other equipment. A shelf for power distribution unit or a cart charger is located on the locker's side. A hole in the rear ensures easy wiring into the locker. Users will certainly appreciate the small box on the reinforced door for golf balls or other small items.

Perforation in the door and in the body serves for air-ventilation. Stored items are safely locked with high quality locks. Triton golf lockers can be placed in two levels.

# Ball locker

Ball locker stores all kinds of balls and other sport equipment in gyms and sport facilities. Four high-adjustable shelves with raised edges ensure the balls will stay in the locker.

Ball lockers are made from laminate chipboard 18 mm thick which have one fixed shelf and two adjustable shelves for better flexibility. In case of needs we are able to deliver shelves separately. All edges are covered by ABS edge thick 2 mm.

## Hockey box and multipurpose boxes

Hockey box is made of laminated chipboard and is designed for locker rooms in hockey arenas. However, it can be used elsewhere, where there is no need for standard lockers.

Hockey box is offered in two versions: with open or closed space under the seat. One lockable box with a slot for quick storage is included as well as two double hooks and two shelves.

The hockey box is designed for up to two persons.

## Ski and snowboard lockers

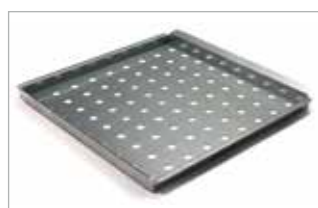

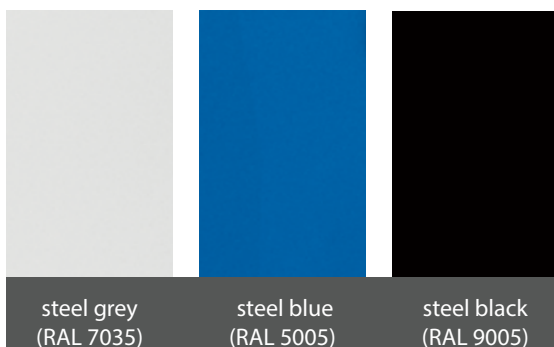

Ski and snowboard lockers are designated for ski equipment storage in hotels, pensions and ski-depots in ski areas.

The lockers are characterised by welded steel frame, which is powder coated. Back panel is ready to be equipped with efficient drying system.

Special perforation in the door and back side provides air circulation inside the locker.

Option with 2/3 shelf allows you to put in longer objects to use the full height of the locker.

The lockers can be equipped with zinc-coated drip tray or grid.

- NLAT20-0005-66 – Removable Drip Tray SKI 320x600, oblique
- NLAT20-0005-67 – Removable Drip Tray SKI 520x600, oblique
- NLAT20-0005-68 – Removable base grid SKI 320x600
- NLAT20-0005-69 – Removable base grid SKI 520x600

### Ski and snowboard lockers

Height x width x depth (mm)	2155 x 320 x 600	2155 x 520 x 600
Number of sections	1	1
Equipment	1 x shelf	1 x shelf
Weight net / gross (kg)	44 / 49	54 / 58
Order code	LSS-21-A36-XXX-X2 - zinc-coated	LSS-21-A56-XXX-X2 - zinc-coated
Order code 2/3 shelf	LSS-21-A36-XXX-X3 - zinc-coated	LSS-21-A56-XXX-X3 - zinc-coated

## Drying systems

The drying systems for shoes, ski boots and rubber boots operate on the continuous circulation of hot air, which is blown onto the drying objects in the locker. The air temperature is around 45°C (ambient temperature 15°C - 25°C) and is perfect for fast, hygienic and safe drying. Every dryer has an analogue timer with settings for 1-120 minutes of operation.

These drying systems have a wide range of applications in a variety of businesses and organisations such as fire stations, chemical laboratories, construction companies, industrial companies, agricultural facilities, hotels, cottages, fishing clubs, army facilities, police stations, sports clubs and many more.

The purpose of use: boot dryer, ski boots dryer, rubber boots dryer, drying locker.

# Fire lockers

## and lockers for rescue services

Clothes lockers especially made for firefighters and rescue services.

Lockers have a welded body made of 1 mm steel. Their open construction allows immediate access to the stored clothing

whenever needed.

Feet can be purchased separately, as well as a special tilting helmet holder. Holder can be easily pulled and the helmet removal is simple.

Keypad operated with a 4-digit custom code. This lock is battery powered and ensures solid security. This eliminates the necessity of keys, smart bracelets, keychains and cards. Locks can be mounted in vertical or horizontal position.

### Digilock SOLA RFID

Locks are operated by card or chip bracelet. This lock is battery powered and ensures solid security. The lock is RFID operated with either an assigned or free use. Can be mounted in vertical or horizontal position.

**BURG®**

### Cylindrical lock Burg - for steel

Locking fixes the door in its central part. As a standard, locks are equipped with two steel keys. Locks can be equipped with a master key system (master key is universal for locks in steel and laminated chipboard as well).

**Order code:** IZN-ZK-X24-XXX-X1 - right, left lock  
 IZN-ZK-X08-XXX-X1 - master key

### Cylindrical lock Burg - for laminated chipboard

Locking fixes the door in its central part. As a standard, locks are equipped with two steel keys. Locks can be equipped with a master key system (master key is universal for locks in steel and laminated chipboard as well).

**Order code:** IZN-ZK-X06-XXX-X1 - right lock  
 IZN-ZK-X07-XXX-X1 - left lock  
 IZN-ZK-X08-XXX-X1 - master key

### Turning lock Burg

Locking with a turning clamp; a padlock is used to fix the lock in the locked position. Recommended diameter of the pad lock shackle is 6 mm.

**Order code:** IAZ-ZK-X67-XXX-X1 - right lock  
 IAZ-ZK-X66-XXX-X1 - left lock

### Safety turning lock Burg

Locking with a turning clamp; a padlock is used to fix the lock in the locked position. Recommended diameter of the pad lock shackle is 6 mm. After inserting the padlock shackle, the safety lock spins freely and prevents the forcible spinning of the lock in the assembly hole.

**Order code:** IAZ-ZK-X53-XXX-X1

## Mechanical code lock Burg sPinLock 510

This mechanical code lock has a 4-digit code locking system with the option of a master key. We recommend using this lock in places where the users do not change very often (lockers for fire fighters, golf lockers).

**Order code:** IZN-ZK-A20-XXX-X1 - right lock  
 IZN-ZK-A21-XXX-X1 - left lock  
 IZN-ZK-A22-XXX-X1 - master key

## Mechanical code lock Burg

This mechanical code lock has a 4-digit code locking system with the option of a master key. We recommend using this lock in places where the users do not change very often (lockers for fire fighters, golf lockers).

**Order code:** IZN-ZK-X26-XXX-X1 - right lock  
 IZN-ZK-X25-XXX-X1 - left lock  
 IZN-ZK-X22-XXX-X1 - master key

## Coin lock Burg

This lock is designed to accept € 1 coins. Another coin value can be requested as well. The key remains blocked in the lock until the coin is inserted and then the locker is locked. After unlocking, the coin is released and returned or held in a money collecting box and the key remains blocked in the lock again. Coin locks can be equipped with a master key.

**Order code:** IZN-ZK-X11-XXX-X1 - right lock for € 1  
 IZN-ZK-X12-XXX-X1 - left lock for € 1  
 IZN-ZK-X13-XXX-X1 - master key

## Burg Combi Pad

Keypad operated with a 4-digit or 6-digit custom code. Sturdy full metal anti-vandal lock. Water resistant. Battery lifetime is 60.000 locking cycles. Master key is replaced by master code system.

**Objednací kód:** IZN-ZK-X29-XXX-X1 - right lock  
 IZN-ZK-X30-XXX-X1 - left lock

## Burg Corona

Lock is operated by a card or any chip. It is compatible with systems based on 125 kHz frequency or Mifare technology. The lock includes two batteries, LED back light and can be programmed as single or multi-user.

**Order code:** IAZ-ZK-X60-XXX-X1 - lock for laminated chipboard  
IAZ-ZK-X59-XXX-X1 - lock for steel

## ACS 19-HU

Locks ACS 19-HU offer assigned or free use. Almost all-metal, very durable construction. Ideal price/performance.

## KERONG

Digital sensor lock, which can be operated by a touch by a up to 8-digit code, or by code and fingerprint reader or by RFID and numeric code, fingerprint reader + Bluetooth for remote control using an application on a mobile device.

**Order Code:** IZN-ZK-A10-XXX-X1 - lock with numeric code  
IZN-ZK-A11-XXX-X1 - with numeric code, fingerprint  
IZN-ZK-A12-XXX-X1 - RFID with numeric code, fingerprint, Bluetooth

## The eco-friendly locker system which saves time, money and stress.

No on-locker management, no broken keys/locks, no need to change harmful lock batteries, etc.

Intelligent, secure, low-maintenance, centrally managed and most user-friendly locker system for storage and delivery lockers in modern offices, smart buildings and other facilities of any size.

### Metra electronic lock

Central unlocking of individual lockers  
Fully concealed (not visible on doors)

**Daily lockers** (daily guests and visitors)

**Rental lockers** (renting out lockers)

**Workplace lockers** (employees, students)

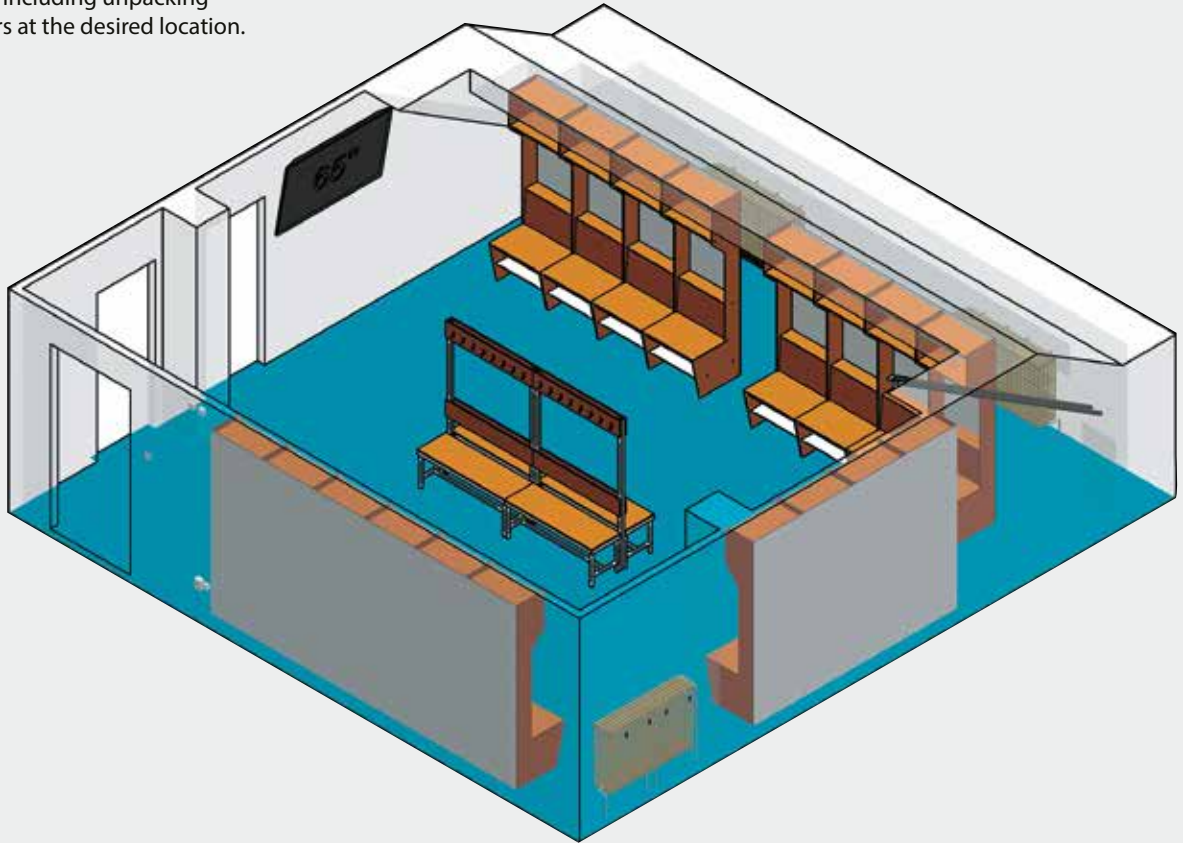

**Delivery and Pickup lockers** (parcel)

**Integrate with any third-party system**

Access control, time and attendance, payment, cashless vending, facility, etc.

# Project realization

Our company provides complete delivery of your order from consultation and production of your chosen product to transport with our fleet or contract carrier including unpacking and placing lockers at the desired location.

## Technical support

We will be pleased to provide you with expert assistance in selecting the right product. Based on your specific requirements, we propose the most appropriate dimension, construction and optional locking system. If needed, we will measure your desired area and develop graphic design solutions.

## Production

Own production on automated CNC machines which increases the quality and accuracy of our product. The most important thing for us is to meet customer demands and therefore we offer all additional equipment as marking of lockers, keys, hooks, nivelation feets and others which are part of the order.

## Transport

We use our own fleet or contracted carriers to transport our products. According to the place of implementation and shipping order dimensions, we choose the best method of transport. Many projects are implemented in places where a tailgate is needed for unloading goods.

## Assembly

The final step to successfully complete the projects is to unpack and place the lockers. All packaging material will be taken back with us.

# Presentation

## Triton showroom

There is no better argument for a product than a demonstration of a sample. For this purpose, we have set up a presentation centre with samples of our products: clothes lockers, golf lockers, lockers for firefighters and rescue services, data cabinets and other products.

# Packaging, transportation

## Packaging

We deliver our products in special packaging. Clothes lockers have edges protected by highly resistant polyurethane foam and the whole locker is then protected with a shrinkwrap against dust and scratching when being transported. All our products are distributed on wooden pallets.

## Transportation

Transportation of our goods is provided with our own vehicles or in cooperation with our contract carriers.
